

Medical Gas Outlets AS2896

Description

- Medical gas self sealing outlets.
- Available in two options with annealed copper tails or NIST connectors.
- Suitable for use inside MRI areas where correct outlet material is imperative.
- Unique swivel outer ring for ease of installation and lining up of outlets.
- Indexed ring system to comply with AS2896 allowing connection of SIS connectors.

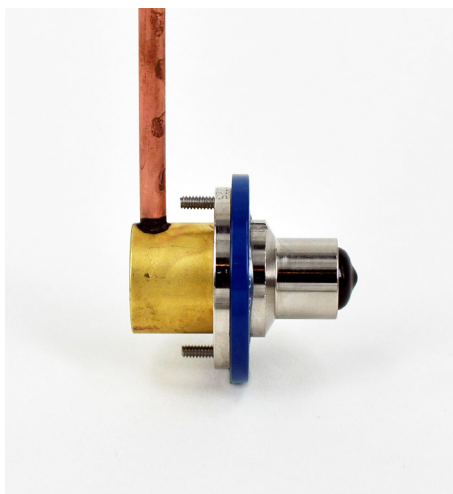

Applications

- General wards
- Recovery areas
- Theatres
- Intensive care units
- Day surgeries

Service

- Full replacement parts are available.
- Servicing is required as part of AS2896
